WHILE driving through a bush road in the Fort Saskatchewan district on Saturday, Dr. McInnis narrowly averted being struck with a large tree that fell across the road, the branches of which struck the buggy.

T. BENNETT, late chief of the department of immigration at Winnipeg, arrived with his wife and family on Monday's train. Mr. Bennett comes to take charge of the immigration office at the Edmonton station.

MR. F. D. FORTIN, who has been laid up with a severe attack of inflammatory rheumatism for the past two weeks, leaves for Banff hot springs on to-morrow's train in the hope that the baths will effect a complete cure of his malady.

REV. E. EBERHARDT, of the evangelical Lutheran church, Missouri synod, arrived on Monday night's train from St. Paul. He will conduct services in the new house that the Lutherans of Stony Plain district have recently built. He also purposes establishing a school there.

MR. HARTLEY GIBBORNE, district superintendent of the government Telegraph service will drive from Edmonton to Qu'Appelle, inspecting the line and offices en route, after inspecting the lines in this neighborhood. The distance to be travelled is about 1500 miles.

THE department of the interior is turning its attention towards Kansas as a field for emigration, more than it has done heretofore. Rev. Father Morin, together with Mr. Paulin of Beaver Lake have been appointed to do immigration work in that State, a work upon which they start out after returning to Montreal.

THE general color of the ptarmigan is supposed to be white and many authorities insist that it never changes color. Mr. Malterner, who has just returned from the Barren lands says that without doubt the ptarmigan does change its color. In summer its plumage is a dark brown and the outer half of the wing feathers are pure white. In winter the bird is all white. Mr. Malterner shot several while on his northern trip.

FATHER MORIN, who came in on Monday's train from Montreal is at present visiting at Beaver Lake. He returns east on Friday, taking with him some pupils for different colleges there. These colleges are endowed for the purpose of training children who have not the opportunities near at hand. Father Lacombe succeeded in securing from the superiors of fifteen of these colleges, a place for one child in each, when in the east last year. Father Morin takes with him six children on his present trip.

THE managing committee of the citizen's band held a meeting on Monday night. Mr. O. May, the leader, was authorized to make whatever instrumentation he thought in the best interests of the organization and also to choose from the late members those whom he thought were best suited to the various instruments. The following members were chosen with the appended instrumentation: E. flat clarinet, Fred Kiel; B flat clarinet, J. B. Spurr, R. Duplessis; Solo B flat cornet, O. May; First B flat cornet, W. Clarke; Second B flat cornet, R. Hockley; Third B flat cornet, S. Larue; Alto, G. Corriveau and J. G. Fairbanks; Slide trombone, A. G. Randall; First baritone, Mr. Morel; Euphonium, F. D. Fortin; B flat bass, A. H. Goodwin; E flat bass, E. A. Sheppard; Small drum, G. Corriveau, jr.; Bass drum, Mr. Gariepy. The band, in future, will not exceed eighteen members. Special practices will be arranged for the other members of the band, who will serve as a recruiting force.

THE travelling dairy, under the direction of the department of Agriculture, will visit Edmonton to-morrow and Saturday. An expert butter-maker and an assistant, with an outfit of utensils, including a centrifugal cream separator, a churn, a butter worker, a Babcock milk tester etc., will arrive on to-night's train. The lecture and exhibition will take place in the town hall, commencing at 10 a. m. when the morning session will be devoted to running of the centrifugal cream separator, the testing of samples of milk and preparing about two gallons of cream. In the afternoon session, churning of cream, making butter, and ripening cream from the centrifugal separator will be proceeded with. An address upon dairying will follow. On Saturday the programme will be somewhat similar to that of Friday, only instead of an address, there will be a discussion on dairying. The government takes this means of instructing farmers and others in this important branch of agriculture, by practical tests, and it will be to the loss of our local yeomen if they do not avail themselves of this free opportunity for gaining knowledge on a subject that is of the utmost importance to them.

R. SECORD made a large shipment of fur to London on Tuesday's train. He has several large shipments still to make.

REV. FATHER POITRAS came in on Monday's train to take charge of the Catholic settlements at Sandy Lake, Wetaskiwin and Leduc.

REV. ALEX. SMITH, Presbyterian minister of Rushville, Neb., arrived on Monday and has gone into the Beaver Lake district with a view to settling there. Should he like the district he will eventually stay there when most of his congregation at Rushville will follow him.

A VARIETY of loon, shoot by Frank Hardisty at a lake near the Hardisty ranch is said to be entirely different to any loon shot in this vicinity heretofore. The bird is much smaller than the large black loon so commonly seen and is of a grayish color with dark markings. It will be mounted.

A ROMAN Catholic Indian mission school is being established at Bears hill by the Rev. Sisters of the Assumption, of Nicolet, Quebec, three members of which arrived a week or two ago. This order has schools at Battledore and Onion lake. A new Roman Catholic church is also being erected at Bears hill.

REV. MR. BRICK, of Christ church mission, Peace river, is at the Landing on his way to town. He brought with him a boat for his son, who went north with 6,000 pounds of goods two weeks ago to take up the Athabasca and Little Slave rivers to the mission. Mr. Brick has been at the mission seven years.

THE dates for Hon. Wilfrid Laurier's tour through the Northwest Territories have been fixed as follows: Edmonton Thursday, Sept. 20th., Calgary Saturday, Sept. 22nd., Lethbridge Monday, Sept. 24th., Medicine Hat Tuesday, Sept. 26th., Moose Jaw Friday, Sept. 28th., Indian Head Saturday, Sept. 29th., Moosomin Monday, Oct. 1st., Prince Albert Wednesday, Oct. 3rd., Grenfell Friday, Oct. 5th.

MONDAY's train brought 60 new settlers and prospectors. Of these 20 were from Ontario, 12 from Quebec, 1 from Manitoba, 2 from Nova Scotia, 1 from Prince Edward Island, 12 from Dakota, 1 from Maine, 4 from Massachusetts, 3 from Minnesota, 2 from Iowa, 1 from Nebraska, and 1 from Russia. Of the 60 settlers 46 were for Edmonton, 1 for Leduc, 5 for Wetaskiwin, 5 for Lacombe, 1 for Red Deer and 2 for Innisfail.

TUESDAY morning was occupied at the police barracks with a case of "Cruelty to animals" preferred by Alf. Brown against L. Grimer. This case is one of driving a horse to Fort Saskatchewan and back in about five hours. Six witnesses were examined for the prosecution. The witnesses for the defence will be called on Monday morning next. J. C. P. Brown appears for the prosecution, W. Short for the defence. The case is being tried before Inspector Snyder and C. W. Sutter, J. P.'s.

MR. CONNOLLY, Dominion emigration agent for Ireland, who spent last week in this vicinity looking over the district as a field for emigration, left with his wife for Ottawa on Tuesday's train. He was delighted with the district and will have no hesitation in recommending it to the sons of Hibernia on his return. What surprises him most is our congenial climate; but then, he says, "I suppose these soft winds come through the passes in the Rockies and extend over a vast stretch of country, getting more settled the farther they go," and he was about right. N.B.—The above was written day before yesterday.

ANOTHER enthusiastic visitor to the Edmonton district is Rev. W. Alexander Smith, of Rushville, Nebraska, who came in on Monday's train. He asked permission from the C. P. R. to visit this district, promising to verify the reports circulated in pamphlet form if he found things as represented and could conscientiously recommend the country to his parishioners in Nebraska. It is needless to say that he had looked for. He has visited the Stony Plain district and speaks in very high terms of the fine crops he has seen. At Mr. Ulmer's he saw the finest crop of wheat in the stock that he ever saw in his life, it being estimated at 55 bushels to the acre, but in order that he may be on a safe calculation and may not appear to be exaggerating it—it is not well for ministers to appear exaggerative—he places it at 50 bushels to the acre. A statement from Mr. Shultz of the same district to the effect that off 43 acres of land he had a crop of 300 bushels last year seemed a great surprise to him, and when Mr. McNeil told him that off 12 acres he had a crop of 650 bushel he says it will be hard to make the people believe it. Such vegetables and garden produce he has never seen anywhere and is very much delighted with the prosperity he sees on all sides. He leaves for Lacombe in the morning and will return to the Dried Meat lake as he is anxious to locate in a picturesque spot on a bright lake, where beauty and utility are combined. He thinks the country here very romantic and beautiful.

POPLARS are changing color here and there.

CAPT. BELL, of the H. B. Co.'s S. S. Athabasca, is at the Alberta.

RAIN set in on Tuesday night and continued almost the whole of yesterday.

JAS. STEWART has returned from Port Saskatchewan where he has been gold mining.

THE Selwyn oil exploring party at Athabasca Landing have piped off the flow of gas and are now down 450 feet.

A RAFT of lumber containing seventy-five thousand feet arrived yesterday afternoon for Chave and Co. from their mills up the river.

MESSES. OLIVER and Prince, M. L. A.'s, returned from attending the session of the Northwest Assembly at Regina on Monday night.

THE Edmonton fall exhibition, to be held here on Oct. 9th and 10th, promises to be up to its general excellence. The committee is making the necessary preparations for its success. Reduced fares on the railway have been secured, and the prize list is being revised and added to.

THE following are the names of the party of immigrants who accompanied Rev. Father Morin on Monday's train: Albert Forst, Moise Anyot, M. L. Perras, Montreal; Mrs. Keegan and three children and Miss Cyr, of Van Buren, Maine; Mrs. Gregoire and three children, of Montreal; L. Beaudin and Miss Lepage, Rimouski; Mr. and Mrs. Henderson, Ontario; L. M. Godbout, Sherbrooke; O. P. Olivier, Fall River, Mass.

DAN. NOYES and A. Coghan returned from their gold prospecting expedition to the Jasper pass yesterday, but with what success we cannot say. Several specimens of rock were brought back which have yet to be assayed. On their return journey they met Harry Anthony, Mr. Purches and Benj. Wilson bent on a similar trip. They had apparently gone a little out of their way, thus being delayed. They will probably be back in two weeks.

S. R. BENOIT, formerly manager of the branch of Jacques Cartier bank at St. Anne de la Parade, arrived with Mrs. Benoit on Monday night and is registered at the Alberta. Mr. Benoit comes to take charge of the branch of La Banque Jacques Cartier which is shortly to be established here.

Senator Desjardins, president of the bank, accompanied by his two daughters, Misses Aurea and Virginie Desjardins, continued on the Pacific express through Calgary on Monday for Banff where they will spend a few days prior to going to the Pacific coast. Hon. Alphonse Desjardins, of Montreal, senator for the electoral division of De Lorimier is a prominent figure in public affairs of the Province of Quebec, having been for years one of the foremost lawyers of Montreal, then associated with the French-Canadian journals, being editor in succession of L'Ordre and Le Nouveau Monde. In 1870 he became the first president of La Banque Jacques Cartier and a factor in the Richelieu and Ontario Navigation company. For years he represented Hochelaga in the House of Commons and was called to the senate a few years ago. He is expected to arrive on to-night's train; but before returning to Montreal, he and his daughters will spend a few days in Winnipeg and St. Boniface.

LOST.—From Tp. 54, R. 21, Sec. 34, about the end of May last, a white and red steer about a year and a half old. Head entirely red with cut in ear. Any person having found same will please return to 91-92 STEPHEN KOROLUK, Beaver Hills.

EDMONTON BULLETIN, SEPTEMBER 13TH, 1894.

HON. WILFRID LAURIER.

The tour of Hon. Wilfrid Laurier and party through Western Canada has received an amount of favorable attention from people of all classes in the country that must be highly flattering to that gentleman and his friends, especially when it is remembered that Manitoba the Northwest and British Columbia, send—with one exception—a solid representation to the house of Commons in opposition to the party of which he is leader. He has not been so well received because, but in spite of his politics, and when that is said a great deal is said in this country where politics of the meaner sort run so high. The meetings which he addressed in Winnipeg and in Regina are unanimously acknowledged to have been the largest ever held in those places, and the requests for his attendance at other meetings in other places on his return from the coast have been so numerous that he cannot find time to accept but a small proportion of them. Had he visited this country a few years ago, he certainly would not have met such a reception. The change of feeling on the part of the people shows that they are arriving at a fuller and better appreciation of the politics of the country—using the word in its best sense—when they are so desirous of meeting and hearing one of its leading statesmen without regard to whether he sits on one side of the house or the other; whether he has the responsibility of directing public affairs on the almost equal responsibility criticizing that direction; or whether they agree or disagree with his views. Mr. Laurier by reason of his own reputation and abilities and even more by reason of the position which he holds as leader of the liberal party necessarily exercises a very powerful influence upon the affairs of this country for good or ill at the present time; and people are naturally anxious to see such a man and hear what he has to say. So far he has accepted the attention which has been offered him in the spirit in which it has been offered; as an acknowledgment of his position as a Canadian statesman rather than as a party leader, while at the same time he has not hesitated to state in unmistakable terms his views on certain burning questions of the day. The interest of Mr. Laurier and party in making the present tour apparently is not so much with a view to converting the people of the Northwest to his and their political faith as to secure information which will enable the liberal party to take a more intelligent stand upon Western matters than was possible in the past from lack of actual knowledge, if from no other cause. This being the case it is the interest of every man to impress upon these gentlemen the value and importance of the Northwest as a whole and especially of the particular district in which he himself is most interested.

REDISTRIBUTION.

By the redistribution bill passed at the late session of the Northwest legislative assembly the number of constituencies has been increased from 26 to 29. Two of the new districts are in Alberta and one in Eastern Assiniboia. In Eastern Assiniboia the new district is called Yorkton and is chiefly the western part of the former district of Wallace, with additions from the adjoining constituencies. In Alberta a new district is created south of the city of Calgary and called High river. What remains of the former Calgary district which elected two members jointly is divided along the centre of the city into East and West Calgary which will elect members separately. In Northern Alberta the new district of Victoria is formed chiefly from the eastern part of the Edmonton district. It also takes four tiers of townships from the north side of Red Deer district, and four tiers from the west side of Battleford district. This district includes the settlements of Fort Saskatchewan, Beaver river, Victoria, Whitefish lake, Saddle lake, Egg lake, Beaver lake, Vermillion Creek, Birch lake and the Selvaiz

settlement on Battle river. The following is the clause of the bill defining the district of Victoria:

The electoral district of Victoria shall consist of that portion of the provisional districts of Alberta and Saskatchewan bounded on the east by the line between ranges seven and eight west of the fourth meridian in the Dominion lands system of survey, on the south by the eleventh correction line and on the west and north as follows: commencing at the point where the eleventh correction line intersects the line between ranges twenty-one and twenty-two west of the fourth meridian, thence due north along the said line to its intersection with the line between townships fifty-three and fifty-four, thence due west along the said line to its intersection with the east bank of the North Saskatchewan river, thence northerly and easterly, following the east bank of the said river, to its intersection with the line between ranges twenty and twenty-one, thence due north along the said line to the seventeenth base line, thence due east along the said line to its intersection with the line between ranges seven and eight west of the fourth initial meridian; and such electoral district shall return one member.

OLDS EXHIBITION.

The residents of Olds and vicinity have hit upon a novel and effective method of showing off the agricultural capabilities of that district. They have secured samples of their principal products which they have arranged tastefully on and about the platform of the railway station. These include wheat, oats and barley fully matured, bright and plump, an excellent display of potatoes and a number of other roots, which are however, not as large in proportion as the potatoes, owing to the dry season. There are also specimens of Indian corn fully ripe and of very luxuriant corn stalks still green, flax, hemp and other things which have not yet become staple crops in this country, but whose appearance would lead to the belief that they may soon be. There are also some very good young cattle and horses in evidence as to the grazing capacity of the region of which, however, no proof was needed. A number of the settlers were present ready to give information to passengers in the brief time allowed by the train. It is intended to keep the exhibits on view for a week or two on train days. Olds is the newest settlement on the C. & E. line, and was founded as a result of the visit of a delegation from Nebraska conducted by H. H. Smith in the summer of '92. Accompanying the delegates were Messrs James Gadsden and W. Mitchell Innis, O. S. Moore and others, and these gentlemen chose the country around Olds to the scene of their future operations. On their coming out in the spring of 1893 they were accompanied by a large number of their Nebraska neighbors who came on the representations of these gentlemen, and formed the present energetic and thriving settlement. The present is the first crop which these settlers have had time to grow, and they are well pleased with the results, notwithstanding the dry season. This settlement is about sixty miles north of Calgary on the high rolling prairie, just outside the poplar and willow bluffs which begin between Olds and Innisfail coming north.

South Africa bids fair to hold second place among the world's gold producers this year. The May output of the Transvaal mines shows an output above that of the past year. The total output of the Witwatersrand mines for five months ending May was equivalent to 650,000 fine ounces of gold, indicating a possible production of about 1,600,000 fine ounces for the present year. Other mines are being opened up in new districts.—Age of Steel.

J. Allan, the professional sprinter, writing to a friend in the city, says that another

match has been arranged between himself and Moosewa, the Indian runner, to come off at Calgary, for a purse of \$150. After the race he will issue a challenge to run any man in Canada at any distance from 100 yards to a quarter of a mile. Allan claims that he is going very fast, and says that if a reasonable offer is made him he would be willing to go a quarter in better than the Canadian record, which at present stands at 50 1-5.—Nor Wester.

NO PLEBISCITE.

Regina Standard: The idea that a plebiscite would be taken in connection with the Territorial election seems to have gone abroad. In fact the remarks of members of the Assembly on the amendment proposed by Mr. Mowat to Mr. Oliver's motion for prohibition show clearly that even they misunderstood that carefully worded amendment. The very words of it are these:—

"That all the words after 'That' to the end of the motion be struck out and the following substituted in lieu thereof:

"Whereas this House has no information from which the views of the country in regard to the traffic in intoxicating liquors can be ascertained;

"And whereas such views could only be ascertained by a plebiscite taken for that special purpose;

"Therefore be it resolved that in the opinion of this House it is not desirable that any legislation should be passed for the suppression of the traffic in intoxicating liquors pending the expression of the views of the country on this subject."

The careful reader will observe that while a plebiscite is mentioned in the preamble to this resolution, the taking of such plebiscite is not made obligatory upon the North West Executive. The substance of it is that no change shall be made until the public express an opinion on the matter. Now, public opinion may be expressed in various ways—by public meetings, by petition, by the press. The amendment of Mr. Mowat was therefore simply a cunningly devised means of evading the resolution of Mr. Oliver in advocacy of straight prohibition, and nothing more.
